

Hydrotherapy Pool

Waterworld Refurbishment Schedule

Between February and September 2018, Waterworld's main pool hall will undergo an extensive refurbishment.

The 25m and 50m pools will be unavailable, and to compensate we need to move a number of programmes and classes into the Hydrotherapy pool.

We recently publicised a proposed schedule for the Hydrotherapy pool during the refurbishment, and asked for customers' feedback.

We have incorporated some changes to the schedule, which has been finalised and is available to view.

We do appreciate the schedule will inconvenience some customers and we apologise for that.

However, we have produced a schedule we believe meets the needs of the vast majority of customers and ensures we can deliver as many programmes as possible.

Please talk to one of the Waterworld management team if you have any questions.
